

Clara and Robert, Düsseldorf

Windows and facades

Clara and Robert, Düsseldorf

Facts and Figures

The concept for the Clara & Robert office building combines two new buildings with the historic Saarhaus. For this purpose, a large part of the facade of the old building continues to exist and is partly enclosed by a cantilevered structure.

The name of the two buildings Clara (west building) and Robert (east building) refers to the composer couple Schuman and consists of seven floors, each in an L-shaped structure. SOMMER was involved in the production of windows and façades in the SOKALTHERM® system for this architectural masterpiece.

CLIENT

Dreßler Bau GmbH, Aschaffenburg

ARCHITECT

slapa oberholz pszczulny architekten GmbH & Co. KG

EXECUTION PERIOD

August 2014 until December 2014
