

Sono West, Frankfurt on the Main Office building in Frankfurt's Westend

Sono West, Frankfurt on the Main

Facts and Figures

SOMMER equipped the „Sono West“ in Frankfurt/Main with an aluminum element facade, glass railings and a revolving door. The unique look with its clear forms and linear design shines out even in a metropolis like Frankfurt. The striking structure of the facade allows for a high level of flexibility inside the building. The LEED Gold (Leadership in Energy and Environmental Design) certification confirms its forward-looking nature.

The major broker and real estate consultancy Jones Lang LaSalle (JLL) has moved its German headquarters within Frankfurt and is now renting the business premises of Sono West as a full tenant.
